

Power your AI transformation with agents and Copilot Studio

Course Overview

Duration - 2 Hours | Level - Intermediate

This executive session introduces business and IT leaders to Microsoft Copilot Studio and the transformational potential of custom AI agents. Learn how agents can streamline operations, personalize customer engagement, and scale internal efficiencies—securely and responsibly. Through real-world use cases, feature overviews, and licensing insights, you'll gain clarity on where and how to start your AI journey with Microsoft's agentic platform.
