

Win the AI and Agentic AI platform decisions with Azure AI Foundry

Course Overview

Duration - 1.5 Hours | Level - Beginner

This session equips partner sellers to lead strategic conversations on building and scaling AI applications with Azure AI Foundry. Learn how to position multi-agent solutions, modular models, and governance-ready deployment strategies. Explore how Foundry integrates with GitHub and Microsoft Fabric to meet customer needs for control, flexibility, and AI innovation—backed by customer stories and actionable guidance to accelerate deal wins.
